EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Holland on 1/24/05.

The application has been amended as follows:

- 21. (Currently Amended) A computer system ms defined in Claim 19 ~~[[20]]~~, wherein the linear segments are respectively mutually parallel.
- 34. (Currently Amended) A circuit as defined in Claim 33 ~~[[34]]~~, wherein the linear segments are mutually substantially parallel.

The following is an examiner's statement of reasons for allowance: With regards to claims 1-19, 21-35, the prior art of record does not disclose or fairly teach a capacitive element connected between the first and the second conductive pads; a serpentine conductor deposited on the circuit board and having first and second ends, the first end connected to the first pad; a tuning capacitance coupled to the second end of the serpentine conductor, the serpentine conductor terminating at the tuning capacitance. With regards to claims 36-39, the prior art of record does not disclose or

fairly teach the capacitance formed by a conductor deposited on a surface of the printed circuit board and separated from the ground plane by the printed circuit board to have a predetermined tuning capacitance set by the printed circuit board dielectric thickness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
